Objective and Cover

I am a dedicated and highly motivated web developer with a strong foundation in front-end and some back-end technologies. Seeking an opportunity to join your esteemed organization to enhance my skills and contribute to company's growth.

Skills and Technologies

Front-End : React.js | Redux | Next.js

Back-End : Node.js | Express.js

Languages : JavaScript | TypeScript

Databases : NoSQL | Mongoose | MongoDB

Recent Projects

FoodSupply

[Live Site](#)

||

Github Code → [CLIENT](#) | [SERVER](#)

Users can donate food, make community, make review and post their own food.

Some Features:

- Eye-catching UI design with some backed functionality especially CRUD operation in Food Supply donation project that showcase an attractive homepage design with framer animation.
- User can register there for uploading their own food from Dashboard, can make review and see list of food for managing. Here also has Volunteer opportunity and theme toggle.

Technologies Used: TypeScript, React.js, Redux, RTK-Query, Tailwind CSS, Express.js & MongoDB.

Device Market

[Live Site](#)

||

Github Code → [CLIENT](#) | [SERVER](#)

Find products for purchasing your needed things in Device Market.

Some Features:

- Homepage with a carousel banner, feature, top products, gallery, with top sellers and blogs as well as sellers can upload their products for selling. Also has Products and Sellers route.
- Also has a login button, so that users can login with their role & buyer can add to cart products. After selecting, buyers will pay for it via Stripe. Admin has full power to manage the site.

Technologies Used: React.js, Tailwind CSS, HeadlessUI, Firebase, Express.js, MongoDB, JWT & Stripe

Grocery Store

[Live Site](#)

||

Github Code → [CLIENT](#) | [SERVER](#)

Users can buy their regular commodity fish.

Some Features:

- Homepage with a carousel banner, Flash Sale discount product and Category list and Popular products list with Navbar & Footer.
- Also contain 3 basic pages, special discount products show in Flash Sale route, all products show in Fish route and Dashboard home with charts and list of products in a Table.

Technologies Used: TypeScript, Next.js, Material Ui, AOS, Express.js, MongoDB
